## **Bioluminescence For Food And Environmental**

Pyrosomes, named  
after the Greek words  
for 'fire bodies' due  
their bright  
bioluminescence, are  
pelagic tunicates that  
spend their entire lives  
swimming in the open  
ocean. They are made  
up of many ...

Researchers  
discovered that  
bacteria, like most  
organisms on earth,  
have a circadian  
rhythm. This new  
understanding may  
have a significant  
impact on scientific  
research into drug  
delivery and biotech.

treatments**

New work from a  
Stanford University-led  
team of researchers  
including Carnegie's  
Arthur Grossman and  
Tingting Xiang unravels  
a longstanding mystery  
about the relationship  
between form and  
function in...
