This work contends that while mental health care is legitimate, many of its claims to scientific truth and authority are not. Written by a practicing psychotherapist, it argues that rather than operating as an objective science, the mental health profession is composed of competing “cultures” built

Cultures of Healing: Correcting The  
Image Of American Mental Health Care a

book by Robert T. Fancher (our site's  
book review) Even though the book is  
about correcting the image of American  
health care, we focused only on its  
cognitive therapy elements, as the  
balance of the book seemed irrelevant  
for our purposes.
