Epson Projectors: Epson EX5200 3LCD projector

Check your notebook's manual or online help for details. On most systems, the key lets you toggle between the LCD screen and the projector, or display on both at the same time. If you connect the notebook while the projector or computer are already turned on, the function Fn key that changes the computer's image signal to external output may not work.

User's Guide - EX3210/EX3212/EX5210/EX7210

So I've got this Epson EX5200 here that needed repair, its issue was no power. I had no problem fixing that and the projector turns on like it should, but there is one odd problem now that is appearing. After pressing power, the power LED switches from amber (standby) to flashing green (powering up/getting ready).
