The GRE Quantitative Reasoning measure is NOT a test of advanced math. In fact, remembering all the geometry proofs, calculus, and trigonometry that you learned back in high school won't help you at all on the GRE Math section. The difficulty of GRE Quantitative Reasoning comes from the need to logically reason your way through each problem.

Like the GMAT, the score range for GRE's Analytical Writing section is 0-6, in half-point increments. Both Verbal Reasoning and Quantitative Reasoning are scored the same way. Their score range is 130-170, in one-point increments. The three section scores are generally reported separately and not combined into a single composite score.

GRE vs GMAT: What's the Difference? Which to Take?

Which test is easier: GRE or GMAT? In general, the GMAT suits those who have strong quantitative and analytical skills, who also excel at interpreting data presented in charts, tables, and text to solve complex problems. The GRE math section tends to be more straightforward and, unlike the GMAT, includes a calculator for all quantitative problems.

This Math Review will familiarize you with the mathematical skills and concepts that are important for solving problems and reasoning quantitatively on the Quantitative Reasoning measure of the GRE®General Test. The skills and concepts are in the areas of Arithmetic, Algebra, Geometry, and Data Analysis.

GRE Math Review - ETS Home

The GRE only tests arithmetic, geometry, algebra, and data analysis (e.g., reading graphs, tables, etc.) — all concepts you studied in middle school and high school. In other words, all GRE math formulas are formulas you learned at some point prior to college. The bad news, however, is that the GRE likes to trick test takers.

Not just this, when GMAT math vs GRE math is compared, you'll find that the GMAT's math section is harder over all. In terms of the GRE, it consists of 2 essays instead of 1, so you need to be a more creative person, but more importantly, someone who enjoys writing.

GMAT vs GRE: What's the Difference?

While the GMAT score is represented by a single scaled number (200-800), the verbal and math sections of the GRE are separate. However, Anderson will combine them when they review your GRE scores, so if you get a super score on one section of the GRE but don't do so well on the other, it will average out, just as it does on the GMAT.
