...

Since doing 20time projects, one key united comment from students has stayed with me: how 20time, this way of learning with freedom, with voice and choice, had such a positive impact on them. Teachers, consider what our students' futures hold for them, how the future needs citizens who can think, be responsible, collaborate, and communicate, and consider making 20time a part of your curriculum.

That's the philosophy behind the 20TimeProject for schools. As a company, Google encourages employees to spend 20% of their time on passion projects that they design. The 20TimeProject, detailed in a book by Kevin Brookhouser, promotes the same philosophy for our students. The goal is to provide time for students to work on independent projects, outside of the confines of traditional content areas, schedule restraints, and the flow of a typical school day.

## **Implementing 20 Percent Time for STEAM Education ...**

One way to teach autonomy that is quickly catching fire throughout education is the concept of 20-Time. The concept is simple. Allow students 20% of class time, or one hour per week, to work on and explore one topic of their choice.

## **20-Time In Education Inspire. Create. Innovate.**

In education the 20% project is a little different for each teacher. There seems to be a divide between teachers who want to give
